

SMART LITE Retail

AdBlue® Retail solution for your trucks, vans & passenger cars

Description

GreenChem offers a smart solution designed for AdBlue® RETAIL storage and dispensing equipment to serve passenger cars, trucks and vans. The only quality AdBlue® bulk storage and dispensing tank range designed and built by an AdBlue manufacturer. The small footprint design makes it possible to install the system in the smallest of places: directly on a service station island with limited space or any other location where AdBlue can be offered.

The SMART Lite system is available with several options and extensive branding opportunities.

We can offer an “all inclusive” solution with no start up fees or capital expenditure and as always, with a fully integrated telemetry system for automatic deliveries.

Technical Characteristics

- ▶ Power system: Single phase 230V 50Hz 10A
- ▶ Dimensions (mm): 1520 x 1300 x 2420 (L x W x H)
- ▶ Armoured cable: 5 metres
